NOTICE OF NON-RESPONSIVE AMENDMENT

1. The reply filed on December 2, 1997 as paper no. 16 is not fully responsive¹ to the prior Office action because of the following omission(s) or matter(s):

a. The following inconsistencies are seen in the December 2, 1997 Amendment and Response, paper no. 16:

- i. Claim 1, lines 2 and 5, has "26'K" instead of -- 26°K --.
- ii. Claim 1, line 7, does not have underlining for "current".
- iii. Claim 12, line 2, has "260°K" instead of -- 26°K --.
- iv. Claim 12, line 7, has "260K" instead of -- 26°K --.
- v. Claim 24, line 3, has "26'K" instead of -- 26°K --.
- vi. Claim 24, line 6, does not have underlining for "superconducting current".
- vii. Claim 34, line 2, has "260K" instead of -- 26°K --.
- viii. Claim 34, line 3, should have "3+" as a superscript.
- ix. Claim 55, line 3, has "26oK" instead of -- 26°K --.
- x. Claim 57, line 3, has the apparently inadvertent deletion of "elements".
- xi. Claim 59, lines 2, 5 (2X), and 7, have deletions of the term "ceramic-like",

while the applicants argue at p. 23, para. 1, of their response that the same term is definite.

¹See 37 CFR 1.111.

Art Unit: 1751

b. The above inconsistencies leave this Examiner without a clear understanding of the amendments the applicants intended to make. For instance, the applicant may or may not have intended to raise the T_c to 260°K. This Examiner would have had to speculate as to what the applicants intended for the other amendments as well. This Notice provides the applicants with the opportunity to clarify their intent before this Examiner makes a decision on the merits, thereby expediting prosecution.

c. It is requested that the Response to this Notice be reviewed **carefully** for any other such mistakes or emissions.

2. Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment.

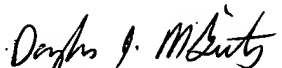

EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).

Conclusion

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Douglas J. McGinty, whose telephone number is (703) 308-3805. The examiner normally can be reached on Monday through Friday from 8:30 A.M. to 5:00 P.M., Eastern time. If *reasonable* attempts to reach the examiner by telephone are unsuccessful, however, the examiner's supervisor, Mr. Paul Lieberman, can be reached at (703) 308-2523. Any inquiry of a general nature or relating to the status of this application should be directed to the Technology Center receptionist whose telephone number is (703) 308-0661. The fax number for this Technology Center is (703) 305-3599.
